

Upgrade Solution

What is a DCX Series II ?

The DCX, brand-labeled for Boston Gear by Fincor, was a chassis mounted DC drive configurable for either 115 or 230VAC and was for DC motors rated between 1/12 -3 HP.

What replaces the DCX Series II?

Our Fincor 2120 Series can replace the DCX Series II functionality. Fincor 2120 Series drives feature compact size and lowest pricing. Chassis units are dimensionally interchangeable with many competitive units and are ideal for the OEM or panel builder who builds a custom system by integrating the drive into an enclosure with special logic or auxiliary control devices. NEMA 1 enclosed units are complete self contained packages ready for wall or machine mounting.

- 1/8 to 3 hp (115 -230V)
- Budget Priced
- Speed Control
- Current Limit
- UL Listed
